- The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.
- Indiana's Telephone Privacy law has improved our time at home through fewer UNWANTED telemarketing phone calls.
- How effective Indiana's law has been ("I used to receive 4-5 calls per evening up until 10:00pm, now I only receive one or two per week with an apology even").
- If this law is repealed I will disconnect my local home phone and use a mobile/cell phone exclusively.
PS: The cell phone privacy better remain Unpublished numbers.

Respectfully,
